1. I talked with Robert Blum, President of the Committee for Free Asia, who had an appointment today with Sen. Knowland. I suggested that Mr. Blum might take up with the Senator the outstanding questions which the Senator had referred to us arising out of a letter he had received which was highly critical of CFA. In addition, Mr. Blum told me that he proposed to answer directly by letter to Senator Bridges the queries which the Senator had regarding the heavy influence of IPR on CFA, which questions had been referred to me through Mr. Scott of the staff of the Senate Appropriations Committee.

3. [redacted]

[redacted] who was removed from the European Theatre during the war. She claimed that her activities there had been to assist a friend in OSS on a project. The [redacted] has now raised some questions and [redacted] has come to us for assistance. [redacted] informed her that if [redacted] was questioning her she could give them a classified memo of the circumstances and they in turn would contact CIA Security Office. [redacted] said she was fed up with all this and would take the matter to Sen. McCarthy. In my opinion the Security Office position in this is correct.
